About Bapco Energies

Bapco Energies, the national energy company, manages government shares in multiple oil, gas, and energy companies.

Bapco Energies significantly contributes to the Bahraini economy, employing over **7,000** people and generating substantial annual revenue.

Sustainability and Bapco:

Meeting present needs without harming future generations' ability to meet their own needs.

Promotes **sustainability** principles.

Leading provider of **oil** and **gas** products and services

Triple Bottom Line:

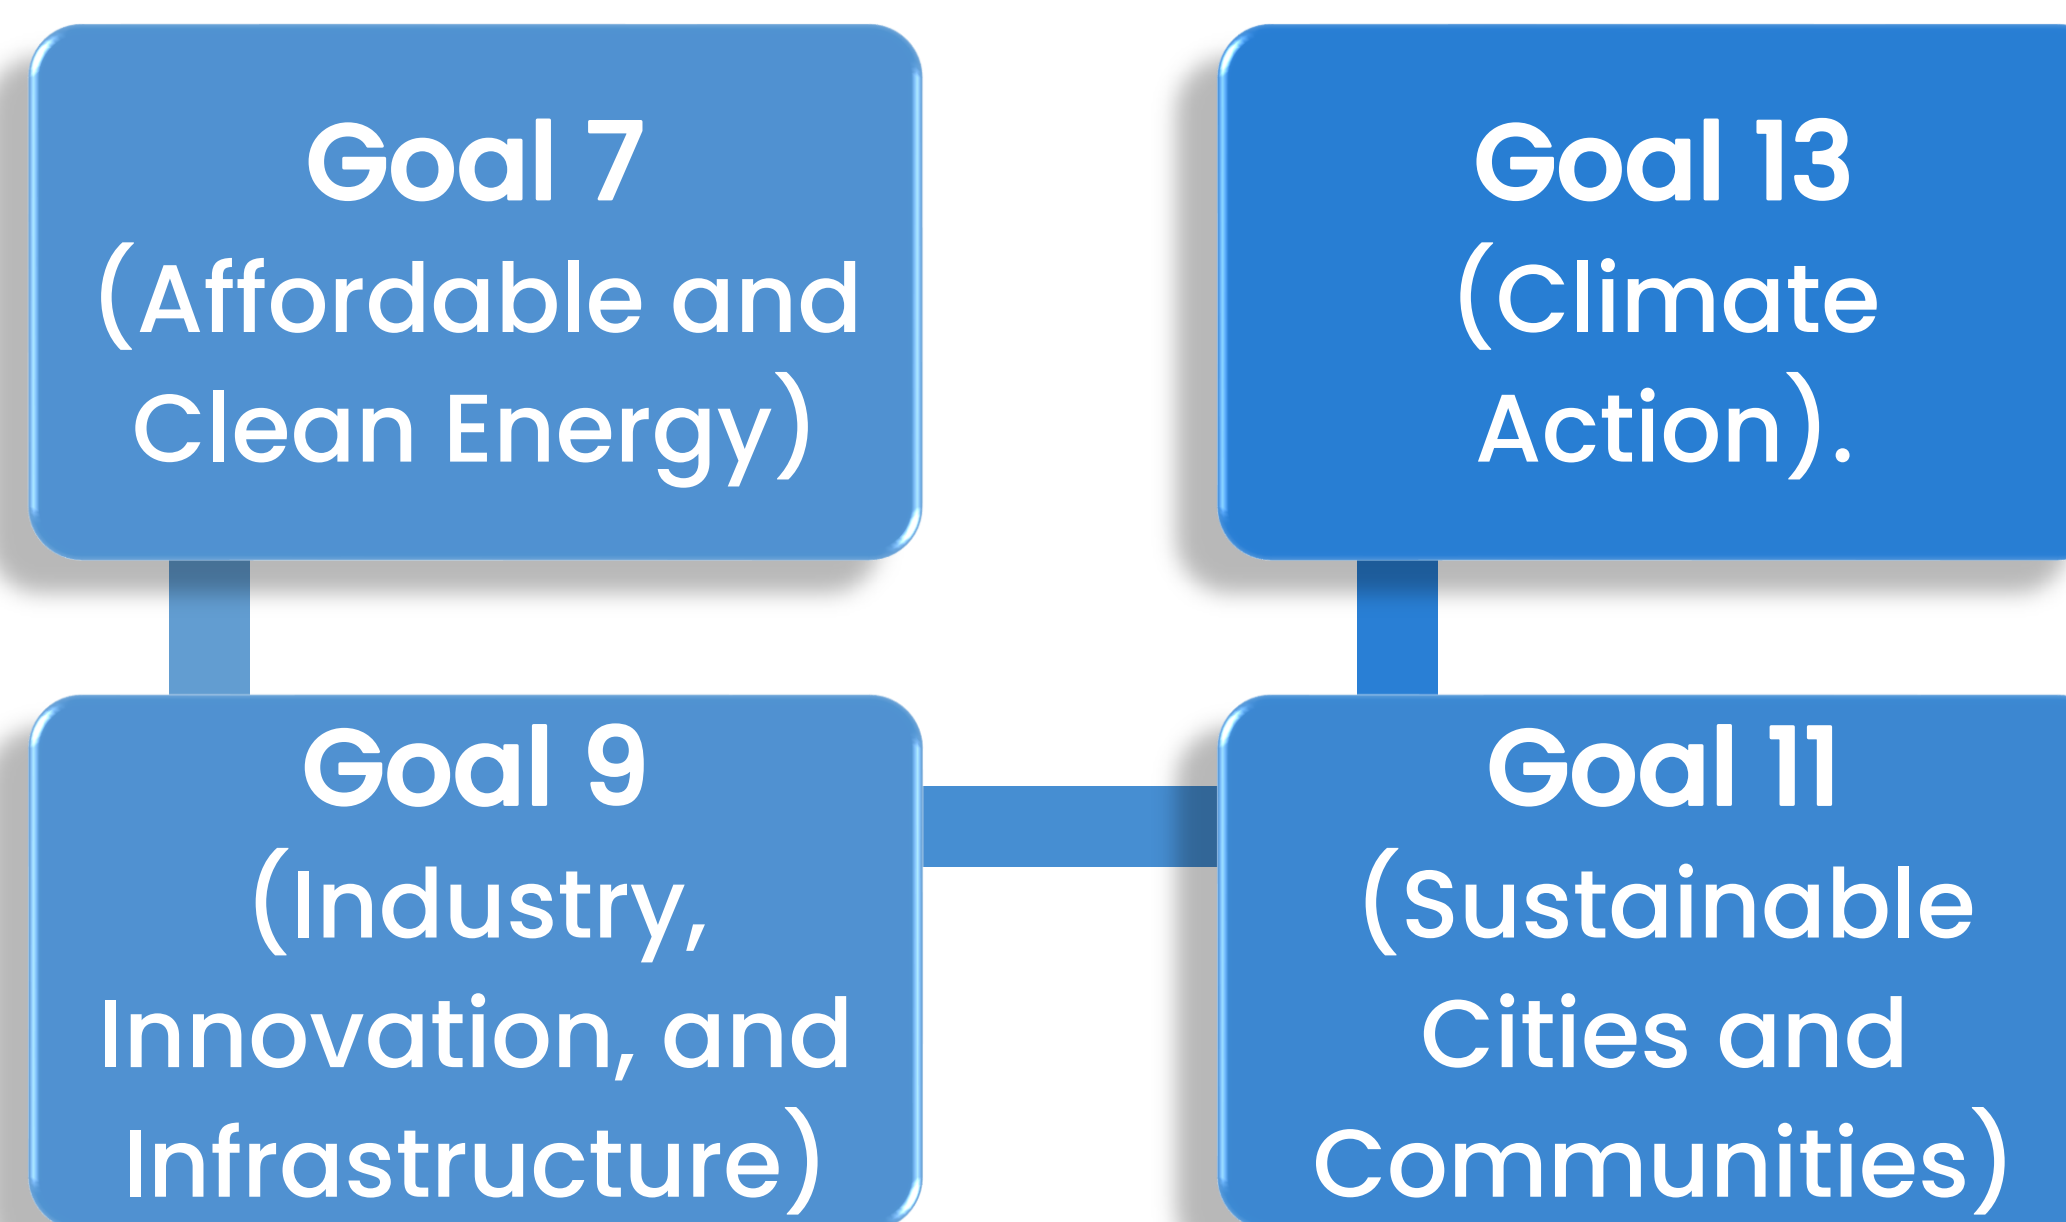

Social (People)

Environmental (Planet)

Economic (Profit)

SDG Goals:

Alignment with Sustainable Development Goals

Ownership Structure:

Possesses a strong mixed ownership structure for smooth operations and effective decision-making.

Faces challenges in enterprise governance and societal impacts.

Implements enterprise governance to improve rules, procedures, and practices, influencing strategy considerations.

Developing countries. Increasing product levels. Addressing weak employee categories.

Aims to improve employee ownership and contribute to the company's growth.

Input – Output Rule

Monitor energy usage, raise awareness, and implement energy-saving initiatives.

Implement measures to reduce environmental impact of energy production in Bahrain.

Solar energy accounted for 29% of WWTP's electricity usage in 2018; in 2019, it increased to 40%.

Use water as coolant for refinery processes.

Emphasize waste elimination, minimization, and reuse in management approach, followed by recycling, treatment, and safe disposal.

Adoption of ES and environmentally friendly innovations mainly influenced by measures to reduce environmental impact of energy production in Bahrain.
